

South Florida Implant Study Club
Michael P. Logue, D.M.D.

Introducing Confidence at Bone Level

The South Florida Implant Study Club is proud to present:
Robert C. Vogel, D.D.S.

Dr. Vogel maintains a full-time private practice in Palm Beach Gardens, Florida in implant prosthetic and reconstructive dentistry. Dr. Vogel conducts many clinical trials and provides invaluable clinical advice to the dental attachment and implant fields, respectively. He lectures internationally on implant dentistry, focusing on: simplification, confidence and predictability of implant prosthetics through ideal treatment planning, and team interaction.

Program description: Participants will review the advantages of placing the implant at the soft tissue or bone level, and situations where each would present benefits for the patients' overall dental health. An overview of the benefits of dental implants from a patient and a clinical practice perspective and how advancements in surface technologies may help to accelerate treatment time will be discussed.

Program objectives:

- Understand the benefits of *Straumann's New Bone Level Dental Implants*
- Understand the importance of surface technologies as they relate to treatment planning
- Review the selection process for potential dental implant patients
- Understand the available treatment planning options incorporating the Straumann ® Dental Implant System
